Distribution of Food kits - COVID 19 Relief Programme

As the crisis around the COVID-19 pandemic grows, the livelihoods of a large number of families surviving on daily wages have been shaken up. Macquarie provided 500 food kits to support migrant families who live in Ruchivihar the remote village of Mahipalpur in South Delhi and to help them have a reliable supply of meals in the absence of employment opportunities.

In the light of COVID – 19, declared pandemic by WHO led to the immediate lockdown in country. Delhi, a capital of India shares the substantial population of economic migrants in it. Preventive mechanism in the form of complete lockdown has created a concern of bread butter on daily wage labours. Stranded labour migrant population struggled with the suspension of train and bus services, these restrictions have left them with no source of income and insufficient ration in their families. With the support of community volunteers, stakeholders and local networks, BOSCO Delhi identified Mahipalpur area to respond with ration kits in slum communities. Ration kits distribution was collaborative initiative of BOSCO- Delhi and Macquarie.

The main target groups are:

- Migrants, slum, daily wagers and vulnerable families
- Stranded individuals,

Total 500 kits were distributed to the vulnerable families. Many young people came forward as volunteers for distribution of kits. They were given appropriate protection gears. Information about each individual beneficiary, as directed by the sponsors, were also recorded for documentation and reporting purposes.

The kit contains: 10kg rice, 5kg atta, 1Ltr cooking oil, 3kg dal, 2kg dry beans, 500gm salt, 2 Nos bathing soap, 2 Nos washing soap

Thank You MACQUARIE
You have fed 2000 poor people
during the national lockdown
